

Quiz 1 - Low Fidelity Wireframe

A low fidelity wireframe of a mobile login screen. At the top, a status bar shows the time 9:41, signal strength, Wi-Fi, and battery. The main content area has a 'Welcome Back!' greeting, a prompt to 'Sign in to continue to your account', and a circular placeholder for a profile picture. Below this are two input fields: 'Username or Email' with a person icon and 'Password' with a lock icon and a toggle eye icon. A 'Forgot password?' link is positioned to the right of the password field. A large, shaded 'LOGIN' button is centered below the inputs. An 'OR' separator is followed by two social login buttons: 'Continue with Google' and 'Continue with Facebook'. At the bottom, a link for 'New here? Sign up' is displayed.

9:41

Welcome
Back!

New here? [Sign up](#)

UX Explanation:

1. The design uses a simple and clean layout so users can easily understand the login process.
2. Large input fields and clear buttons improve readability and make navigation user-friendly.
3. Social login options and a visible sign-up link provide convenience and improve user experience.
